

**PUBLIC NOTICE
OF PROPOSED ACTION**

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes and Federal Water Pollution Control Act. The Administrator has received a complete application for a water pollution control discharge permit (NEV2009502) from the following applicant:

**City of Sparks
910 Roberta Lane
Sparks, Nevada 89431**

The applicant proposes to supply and manage tertiary treated, denitrified, and disinfected effluent for construction water, irrigation, and dust control in Sparks at a total of five, present and planned, City of Sparks truck fill stations. Currently, two fill stations operate under separate permits: Sha Neva (#NEV2004530) and Truckee Meadows Fire Department Station #4 (NEV95005). Future fill stations include one at Kleppe Lane and two at locations to be determined. The consolidation permit (NEV2009502) addresses permit conditions for the current and future effluent reuse truck fill facilities. The Permittee will continue the use of effluent from the Truckee Meadows Water Reclamation Facility (NEV2003506) for the subject truck fill stations in accordance with conditions in the approved Effluent Management Plans required by the Nevada Division of Environmental Protection, and by the terms and conditions of the permit.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes (NRS) as amended, and implementing regulations, the Administrator proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. The permit for this facility will include sampling requirements to assure maintenance of the state ground water quality standards. The permit will be issued for a five (5) year period.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication notice. However, the Administrator can, by this notice or with discretion, extend the comment period. All materials being submitted must be hand-delivered, e-mailed, faxed or postmarked no later than 5:00 P.M. PST, or PDT if in effect, on Monday, March 9, 2009, the close of noticed comment period, to:
